

Environmental Auditing and Environmental Management Systems (EMS)

Environmental Management Systems (EMS) is an important component for any environmentally-conscious company wishing to proactively manage its environmental responsibilities.

Our senior personnel are certified and have extensive experience developing, reviewing and completing environmental:

- Inspections;
- Reporting;
- Auditing;
- Investigations;
- Training (Certified Trainer and Assessor);
- Improvements; and
- Processes and procedures.

CQG is experienced in assisting clients with the development of Environmental Management Systems which are AS/NZS ISO 14001 compliant. We know and understand what is required to implement an EMS.

An EMS is important for your business to:

- Avoid prosecutions and fines;
- Avoid negative media attention;
- Obtain environmentally sensitive work;
- Maintain positive corporate image; and
- Portray a positive environmental consciousness.

CQG are experienced in all components of Australian Standard 14001 EMS including the development and review of the following EMS requirements:

- Environmental policy;
- Aspects and impacts register (environmental risk register);
- Environmental legislation register;
- Environmental objectives and targets;
- Resources, roles, responsibilities and authorities register;
- Competence training and awareness;
- Internal and external communications;
- EMS documentation;
- Document control;
- Operational control;
- Emergency preparedness and response;
- Monitoring and measurement;
- Evaluation of compliance;
- Non-conformity, corrective and preventative action;
- Internal audit; and
- Management review.

Our success with developing and reviewing EMS documentation and processes is a direct result of our team's experience. CQG has extensive experience in auditing and EMS development for a range of industries including construction, mining, chemical manufacturing, power generation, transport and road networks.

CQG has RABOSA certified auditors available to assist clients in meeting their requirements. Our auditors are certified in both:

- AS/NZS ISO 14001 – Environmental Management Systems; and
- AS/NZS ISO 4801 Safety Management Systems.
