

# Planning and Development Services

CQG Consulting (CQG) is a leading Queensland based professional consulting firm that has been delivering intelligent and sustainable environmental, planning and engineering solutions to industry, government and communities since 2004.

With capable, innovative, and respected professional planning and development staff across our Queensland offices, we combine strong technical expertise with commercial acumen and reliable delivery. We connect the knowledge, skill and experience of our planners and project managers with innovative practices, technical capabilities and robust systems to deliver market leading solutions for our clients.

### We can help you with:

- Concept and feasibility studies
- Coordinated project approvals
- Development approvals
- Development project management
- Due diligence assessments
- Operational works approvals
- Property development advisory
- Site and route selection
- Stakeholder and community engagement
- Strategic and statutory planning

Our experienced and innovative planners have delivered planning policies and schemes, high level planning strategies, urban growth strategies, local area plans, master plans, structure plans, and town centre revitalisation strategies and plans.

We provide a tailored project management service that assists our clients in establishing their options, defining their project needs and managing project delivery – we become your trusted advisor through every aspect of the project life-cycle.

CQG's planners and project managers have extensive experience across a wide range of property development projects of varying scales, scopes, and complexity. The overarching objective of CQG is to quantifiably add value across each phase of the property development process that we participate in.

**The overarching objective of CQG is to quantifiably add value across each planning and development project that we participate in.**
