Consulting

*We listen,
we understand,
we deliver.*

The heavens have opened and Queensland is receiving a mighty soaking!

With hundreds of millimetres of rain falling this week, are you meeting your monitoring requirements? CQG can provide a rapid response to meet your needs

Let CQG help you with:

- Environmental authority (permit) compliance
- Rain event monitoring and reporting
- Sampling release waters and overflows
- Assessing dam waters for release suitability
- Receiving environment monitoring
- Effluent and wastewater sampling
- Site inspections and audits
- Stormwater modelling (e.g. MEDLI)

CQG has qualified and experienced staff and the equipment to provide a rapid response. All our monitoring is conducted in accordance with Australian standards, EHP guidelines and analysed by NATA accredited laboratories.
